

## Art Spectrum Museum Stretcher Bars (1.5" deep x 3" wide)

Art Spectrum Museum Stretcher Bars are 3" wide by 1.5" wide and are the strongest bars we sell, highly resistant to warping even in large scale works. These bars are made from carefully selected kiln dried, knot free pine. Wedges can be provided, included in the price. Prices below are per pair:

### Bracing for Museum Stretcher Bars

Bracing is required for bars over 48" in length. Single length bracing is coded in black, one brace the length of the bar is used for frames up to 48". Cross braces are required for frames 48" up to 84" in length, they are coded in green and red and one of each colour is required to form the cross brace.

**Custom sizes also available, please enquire for details**
